212 LEGENDARY OFF-ROAD TOUGH CLASSIC

—
This powerful model not only inherits the retro charm, but also defines the ultimate off-road experience of safety and reliability with excellent off-road performance and player friendly design

HARDCORE CLASSIC

Retain classic elements: arch, circles, horizontals, verticals. 212 Unique air defense light design, giving new scientific and technological value, more practical, the interior adopts pragmatic functional design.

POWERFUL STRENGTH

Utilizing the cutting-edge WY all-terrain architecture platform, separate frame construction, intelligent mechanical part-time 4WD system, and a mass-produced model equipped with front and rear five-link solid axles.

Engine	Max Power	Max Torque
2.0 T	185 kW	410 N.m

EXCELLENT PERFORMANCE

Adopting a short front suspension and long wheelbase layout, the off-road parameter performance is comprehensively improved, which is rare in the same class. The vehicle suspension has a large stroke and better passability, and the anti stamping ability is comprehensively strengthened from the chassis to the transmission.

	Ground Clearance
	235 mm
	Maximum Gradient
	100 %
	Fording Depth
	850 mm

SAFETY

The passenger cabin area employs a high-strength steel cage body structure, equipped with multiple emergency escape functions, demonstrating meticulous consideration. It has undergone reliability verification of over 1 million kilometers to ensure a safe round trip for every one of your adventures.
